Queridos niños y niñas

Nos da gusto saludarlos y hacerles llegar este libro que fue elaborado por el Ministerio de Educación especialmente para ustedes. ¿Saben quién es el Ministerio de Educación? Es el encargado de velar por su educación, de que asistan a la escuela y aprendan en ella.

Cuando se elaboró este libro se pensó que ustedes tuvieran un material, para que con su maestra o maestro, compañeros y familia aprendan acerca del mundo y la vida. Aprenderán del universo, de las plantas, los animales, la familia, la comunidad y mucho más. Podrán pintar, recortar, escuchar, armar historias y dejar volar su imaginación. En cada hoja de este libro descubrirán algo nuevo, que compartirán en sus casas, con su familia y todos terminarán aprendiendo.

Este libro los acompañará durante todo el año, estamos seguros que cuando el ciclo escolar finalice y hayan terminado de utilizarlo, quedarán con ustedes bonitos recuerdos de lo que aprendieron y cómo lo hicieron. Además, en casa podrán volver a ver cada hoja y pedirle a alguien de su familia que les lea o les cuente lo que en ella está escrito.

Queremos que se sientan felices de estar en la escuela y esperamos que este libro sea parte de esa felicidad, deseamos que tengan éxitos en sus estudios y que disfruten su libro, descubriendo y aprendiendo para la vida.

Orientaciones docentes: (*Ch'ob'b'al rub'ehel reh k'uhtaneel*)

El póster (*nimwachb'al*), presenta un entorno de aprendizaje, es decir, un espacio para aprender muchas cosas acerca del cuerpo humano. Especialmente ayudará a los niños a aprender acerca de su funcionamiento, mostrándoles cómo es el cuerpo por dentro.

Este póster (*nimwachb'al*), debe utilizarse a lo largo de la unidad, no solo durante un día o una clase. La información que a continuación se presenta puede trabajarse poco a poco, durante varios días. Así, cada vez que se utilice el póster (*nimwachb'al*), los niños irán desarrollando aprendizajes diferentes.

La información está mediada para la edad de cinco años. Está lista para leerla a los niños y que la vayan relacionando con las ilustraciones. Revise la información y planifique qué trabajará cada día. Toda la información e instrucciones del libro, debe explicarse en el idioma materno de los niños. Esto es fundamental para promover los aprendizajes.

Es importante que al iniciar la unidad, genere expectativas en los niños. Explíqueles que durante la unidad y con ayuda de este material, explorarán y descubrirán la forma sorprendente en que funciona su cuerpo.

De oportunidad a los niños de expresar sus conocimientos acerca del cuerpo humano. Las siguientes preguntas le serán de utilidad:

- *Awach reht'al aha' wilik i sa'luul. Chi jariik irub'an.*
- *Ab'iram naak taq chi riij k'uxliis. Chi jariik ab'iram taq.*
- *Aweht'al naak taq aha' wilkeeb' taqeh pospo'y. Inawaaj naak taq atijem riij taqeh wilih.*

En la hoja de recortables hay varios órganos que luego de haber recortado, el niño podrá pegar en su póster (*nimwachb'al*). No tiene que pegar todas las piezas de una vez, si no conforme vaya aprendiendo acerca de estos aparatos y órganos.

Introducción: (*Okb'al q'orik*)

El cuerpo humano es maravilloso. Gracias a él, podemos correr, jugar, dormir, pintar, comer, respirar, escuchar, oler y muchas otras cosas.

Por dentro hay unos órganos que no podemos ver, pero a muchos de ellos los podemos sentir. Todos estos realizan funciones muy importantes.
